

# **SHOOT, UPLOAD, EDIT VIDEO**

## **Shoot Video**

**Sign-in to your workstation, logon using the VIDEO CLASS student ID, and Open i-Movie**

**Using a *DV – Fire Wire* cable, upload video from your camera to i-Movie. i-Movie will recognize your camera and upload automatically.**

**Upload all additional files, including stills & audio**

**Save project to the External Hard Drive that corresponds with your work station**

**Trim video clips at head and toe so that only the useful clip is saved**

**Place clips on the timeline in the correct order**

**Add transitions between clips, tweek durations etc.**

**Save project every few minutes**
