

CONVERTING FILES FOR TRICASTER

Using a **USB cable and port**, plug the **external hard drive** or data storage device containing the files into the computer

Open the storage device holding the file you want to convert

Click and drag the file you will convert to the **DESKTOP**

Open the **FINDER** on the left end of the **TOOLBAR**

Click **APPLICATIONS**

Click ffmpegX

Click **TRY IT FOR FREE**

Click and Drag file off of **DESKTOP** into **DROP FILE HERE**

Change **TARGET FORMAT** to a .movmpeg-4 file

Click **ENCODE** – This function can take a long time

When encoding is complete, open **I-MOVIE; Start a New Project**

Drag icon off desktop; deposit icon in the **Clip Bin**

When **import** into I-MOVIE is complete, the file is converted
